EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with an associate of Mr. Darryl Mexic on 8/17/2005. The application has been amended as follows: the title will be amended to read --IMAGING APPARATUS WHICH ADJUSTS FOR DARK NOISE AND READOUT NOISE--.

The following is an examiner's statement of reasons for allowance: The prior art discloses separately the relationship between (a) full well size (" $1/M$ ") and dark noise; as well as between (b) readout frequency (" N ") and readout noise. The prior art discloses no relationship between dark noise and readout noise wherein $n_d(1-1/M) > n_r^2(N^2-1)$.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Komiya (5,264,940) discloses the setting of exposure time in order to achieve the greatest dynamic range, taking "dark current noise" and "system noise" into account and adjusting exposure time. Hyncek (5,337,340), the inventor of the charge multiplying detector (CMD), discloses the relationship between full well size and dark noise. Hakamata (6,760,058) discloses an endoscope that reduces dark noise.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip R. Smith whose telephone number is (571) 272 6087. The examiner can normally be reached on 10:00-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Linda Dvorak can be reached on (571) 272 4764. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
